Erfurt, Nov. 14 2012

CE- Declaration of Conformity

We certify keeping standards described below for pressure transmitter

DMU2 / DMU4

1. Sending disturbances: EN 50081-1
Jamming voltage in the range from 150 kHz to 30 MHz
Jamming voltage in the range from 30 MHz to 1000 MHz
2. firmness against disturbances: EN 50082-2
Stability against electrostatic discharge corresponding to IEC 801-2
Stability against quick bursts corresponding to IEC 801-4
Stability against electromagnetic fields corresponding to IEC 801-3

Field of application is „easy industrial application“.
